

Cyber Sentinel

Customer IP Protection from Alloy Precision Technologies

Your IP security is key. We agree. With Alloy Precision Technologies, you gain as part of our services **Cyber Sentinel — our certified IP protection program** — to protect your intellectual property.

Our **Cyber Sentinel** gives you “peace of mind” security over your digital and hard copy drawings, charts, work product, and other IP. Our Cyber Security is designed with the industry's best practices and standards in mind, including:

- Ever changing Wi-Fi password per user
- The National Institute of Standards and Technology (NIST)
- The International Organization for Standardization (ISO)

Customer data and File integrity to keep your data secure. Our Team complies with standard protocols, such as:

- Robust password policies
- MFA enforced (all accounts)
- URL filtering to block personal email and online storage sites
- Policies to ensure only authorized software is installed on company devices
- Two-factor authentication for remote access to our network

Data Security Programs are assessed and updated through cyber security risk assessments and well documented in our security management plans.

- User permission request process/verification

Data Management Standardization. Company-wide data handling standards for customer IP have been internally audited per NIST and are communicated at regular threat awareness training sessions for all employees. Data and file handling audits are conducted annually.

Physical security upgrades. Alloy Precision Technologies customers with documents on site gain protections with physical security measures. For example, security cameras monitor the perimeter, entry/exit points, and the interior of the facility. ID badges are issued to all employees, contractors, and visitors. Of course, our certified ITAR program is in place.

Software / Social Media Security. Alloy Precision has implemented the use of Watchguard Firewall to monitor all traffic.

For more information on our IP security protections please contact Alloy Precision Technologies at sales@alloyprecisiontech.com or 440.266.7700.
